ACCURUN® SARS-CoV-2 Antigen Reference Material Kit is formulated for use with test methods that detect the nucleocapsid (NP) protein of SARS-CoV-2 virus. The kit offers both positive and negative materials for SARS-CoV-2 nucleocapsid antigen tests. The kit is designed to support assay installation and monitoring of day-to-day assay performance, providing a complete quality solution for SARS-CoV-2 antigen testing.

Product Description	Material Number	Pack Size	Antigen Coverage	Release Testing
ACCURUN® SARS-CoV-2 Antigen Reference Material Kit	2015-0231	Positive 5 x 3 mL Negative 5 x 3 mL	Nucleocapsid	Roche cobas® Ortho VITROS®

Not for In Vitro Diagnostic Use. Research Use Only.

SARS-CoV-2 Antigen Solution:

- **Nucleocapsid Target:** Formulated with purified, recombinant SARS-CoV-2 nucleocapsid protein in universal transport media
- **Relevant Ranges:** Specifically designed to be weakly reactive, low positive reference material to challenge assay performance
- **Ease of Use:** Liquid-ready format, requiring no reconstitution
- **Release Testing:** Every lot released on the Roche cobas® and Ortho VITROS® SARS-CoV-2 Antigen assays
